Completing the Plantation Safety Induction

To access the *Plantation Safety Induction* users navigate via the “*My Training*” option on the menu – as shown below.

The “*My Training*” page presents to users the Courses available for completion. Users will commence the *Plantation Safety Induction* by clicking on the green text – as shown below.

Users are to progress through the course by reading and/or listening to the content and clicking “*Next*” at the conclusion of each section.

Where users wish to listen to the voiceover provided with the course, it is recommended that headphones are used in an open office environment so as to not disrupt others. *Note* – voiceover is not available on Apple iOS devices.

During the course, users will be presented with assessments or activities to complete.

To obtain a certificate of completion for the *Plantation Safety Induction* these assessments must be completed successfully.

Assessment: Health and safety overview

If you came across a hazard in the plantation such as a broken branch across the roadway, what would be the most effective risk control?

- Using PPE to walk over it
- Build a bridge over the branch
- Substitute it with another branch
- Eliminate it by removing it
